

## LA NOSTRA FIRMA DI QUALITÀ

*Luzerne New Bone: un prodotto unico*

### FORMULA

La scelta di materie prime di alta qualità, combinate secondo una formula esclusiva conferisce alla nostra New Bone una resistenza superiore.

Luzerne New Bone non contiene ossa, piombo e cadmio.

### SMALTO

La cottura a bassa temperatura (~800°C) del biscotto, la smaltatura ad immersione e la seconda cottura ad alta temperatura (~1400°C) conferiscono alla superficie una maggiore resistenza alle abrasioni frequenti nell'uso professionale.

### TONALITÀ DI COLORE

Luzerne New Bone ha un colore soft, brillante, semplice con un accento di color bianco avorio.

### CARATTERISTICHE FISICHE E CHIMICHE

Luzerne New Bone è estremamente forte, durevole e resistente alle temperature estreme.

## LA NOSTRA GARANZIA DI QUALITÀ

Luzerne New Bone è prodotta secondo standard qualitativi rigidissimi. Luzerne è certificata ISO 9001 ed i prodotti Luzerne hanno ottenuto

l'approvazione dell'American Food & Drug Administration e dell'Ente AVA di Singapore.

Tutti i prodotti Luzerne New Bone possono pertanto essere tranquillamente utilizzati in forno classico, micro-onde ed in lavastoviglie.

Il prodotto ha superato i test sottoindicati:

1. Shock termico: mantenuto per 30 minuti ad una temperatura di 180°C, immerso in acqua ed infine posto a temperatura ambiente, non manifesta segni di rottura.
2. Resistenza all'impatto termico: collocato a temperatura negativa per 8 ore e successivamente posto in contatto con acqua in ebollizione, non mostra alcun cedimento nello smalto.
3. Assorbimento d'acqua: < 0,1%
4. Resistenza all'abrasione certificata e garantita.
